We're always looking for new organizations to collaborate with, through a number of initiatives. The Blockchain Research Institute (BRI) is a global think-tank exploring the promise of Web3 and blockchain technology. With a network of over 2,000 member organizations, including enterprises, governments, and technology start-ups from technology for business, government, and society. Our syndicated program is funded by an international community of member organizations, including companies, governments, and technology start-ups from around the world.

**About the Blockchain Research Institute**

The Blockchain Research Institute, a think-tank exploring the promise of Web3 and blockchain technology.

**Podcasts**

You can find "W3B Talks" on Apple Podcasts, Spotify, Stitcher, Google Podcasts, Amazon Music, and other platforms.

**News**

The United States Congress is delving into the crypto industry with two hearings this week. The first hearing examines SEC Chair Gary Gensler's oversight of the SEC, including a discussion on the definition of "exchange," which may increase the SEC's authority over DeFi and venues using crypto tokens.

**Commentary**

Enterprise adoption of Web3 is here. There are three big reasons for this. First, the technology is ready for prime time. It has grown by orders of magnitude in the last few years and now it is enterprise-grade.
