then go and do it. There are a lot of risks and opportunities in play. There are not only the first level questions about the impact of AI on the new structure of business, environmental, geopolitical, and economic factors that make it evident that we are now indeed living in a new era. Understanding the impact of AI on the new structure of business, a new era that benefits all participants.

The week consists of engagements in Johannesburg and Cape Town geared at strengthening core relationships and leverage global learnings and networks to drive forward an African blockchain agenda. Attendees will have the opportunity to hear insights directly from some of the most influential people in the blockchain space, including Don Tapscott, who has written and interesting article called "Lessons form Davos 2023."
